

Air 1 and K-love are two of the Christian stations in my area. They provide a much cleaner station than those that are financed by commercials. The music played on these two stations doesn't allow the violence or bad language that other stations are playing more and more of. I think that our children should have the opportunity to listen to the stations that we have been listening to for years. These two stations also do a lot of fund raising so that they can provide the clean music that should be on more stations. Not only do they raise money for themselves but also to help others through the inspiration music and the prayers of the ministers and teams they employ.

Please consider the impact that these new regulations will have on the listener funded stations. These stations have been growing through out the years meaning that the listeners are happy with and proud to support such healthy and inspirational entities. Many people may not get the opportunity to be better by the message that the djs and ministers have to offer while the stations are still broadcasting.

Thank you for you consideration,

Jacque Nelson
